What is a Flatmate Agreement?

A flatmate agreement details how you and your flatmates want to live. You can use this to outline how you want to share the space and make sure you all feel happy, and heard, in your flat. You should keep this in your kitchen so you can refer to it throughout the year.

Are you sharing food or buying your own? Sharing sauces/condiments? Rules on milk? Are you sharing kitchen equipment or would you rather not?

Food and Equipment
