

BLOG POST GUIDE

BRIEF

Write a 400-500 word blog post about how your experiences as a Peer Mentor have related to your employability and skills development.

Check out the following link to see (slightly longer) examples of what we are looking for: <http://blogs.exeter.ac.uk/careerzone/>. The article will need to be at a similar standard seen here and the best ones will be used in future online platforms.

CONTENT

Blogs tend to be informal/conversational so you might want to start by briefly introducing yourself and telling us why you got involved as a Peer Mentor. Then tell us about your experiences as a Peer Mentor, the skills you have developed and how they link to the job role or industry you're aiming for.

Please also have a profile picture in the document to go alongside your post.

This activity links very much to the last stage of the workflow (reflection) so will make the final stage very quick and easy for you to complete.

SUBMIT

Submit your blog post by uploading it to the form on your workflow under the Development stage (please ensure this is an editable file and not a PDF).
