

KEEP YOUR TOUCH-POINTS CLEAN

To help reduce the spread of COVID-19, please pay extra attention to cleaning touch-points in your shared and communal kitchens, these are;

- Kettle handle
- Microwave handle
- Kitchen sides
- Fridge / freezer door
- Cooker door handles
- Sink taps

There is anti-bacterial wipes and anti-bacterial spray provided for you to wipe these touch-points before and after use. The cleaning teams will top-up supplies when needed.

Please dispose of the wipes in your normal waste bin, all waste goes into our 'waste to energy' waste stream and not to landfill.
