## **TREMOUGH INNOVATION CENTRE (TIC)**

[www.tremoughcampus.com/tic](http://www.tremoughcampus.com/tic)

---

**WELCOME** to the Tremough Campus, a 100 acre, £100M Higher Education hub that is shared and jointly managed by the University of Exeter (UoE) and University College Falmouth (UCF).

The latest new projects include UCF's Academy for Innovation & Research (AIR), UoE's Environment and Sustainability Institute (ESI), and a vibrant shared 21st-century learning space, The Exchange, all of which will enrich our dynamic community as well as our interaction with the wider world.

---

# AN EXCEPTIONAL EDUCATIONAL EXPERIENCE

---

The £9M **AIR** project is being funded by the European Regional Development Fund (ERDF) Convergence Programme (£6.74M), the South West Regional Development Agency's Single Pot Fund (SWRDA) (£1.54M) and the Higher Education Funding Council for England (HEFCE) (£693K).

The £30M **ESI** is being funded by the ERDF Convergence Programme (£22.9M) and SWRDA (£6.6M), with significant support from HEFCE.

The £10M **Exchange** is being funded by HEFCE (£4.37M), the ERDF Convergence Programme (£3M), SWRDA (£1M) and UCF/UoE (£2M).

UCF and UoE have made substantial investments to create a unique shared campus. Additional significant funding is now being committed to the above projects and to further enhance the campus environment.

# THE EXCHANGE

[www.tremoughcampus.com/the-exchange](http://www.tremoughcampus.com/the-exchange)

**The Exchange will be a world-class learning, teaching and research facility at the heart of the campus.**

A 'social street' will run through the building to provide a series of informal learning environments and link the existing Learning Resource Centre to a range of distinctive new spaces that reflect the needs of 21st-century students – from a collaborative lecture theatre and learning lab for ideas exploration to 'eddy' spaces for small group learning and exhibition areas for display.

---

# ACADEMY FOR INNOVATION & RESEARCH AIR

[www.tremoughcampus.com/air](http://www.tremoughcampus.com/air)

---

The Academy for Innovation & Research will focus on the two research themes of sustainable design and digital economies, and enable innovative Cornish companies to achieve their full potential by developing new products and services, new routes to market, new relationships with each other plus ready access to investors and suppliers, regionally, nationally and internationally.

Applied research on topics such as future transport solutions, energy challenges, eco-town developments, our ageing population, the potential of next generation broadband, and questions of digital inclusion, health and wellbeing will all create growth opportunities for creative and ambitious businesses in Cornwall.

---

# ENVIRONMENT AND SUSTAINABILITY INSTITUTE

## ESI

[www.exeter.ac.uk/esi](http://www.exeter.ac.uk/esi)

[www.tremoughcampus.com/esi](http://www.tremoughcampus.com/esi)

---

The Environment and Sustainability Institute (ESI) is a £30M interdisciplinary centre leading cutting-edge research into the consequences of environmental change and the mitigation and management of its effects. Inaugural Director, Professor Kevin J Gaston will lead a team of over 20 new academic staff with research spanning three interrelated themes: clean technologies, natural environment, and social science and sustainability.

Through a specialist knowledge exchange team, the ESI will engage with hundreds of businesses in Cornwall, the Isles of Scilly and beyond to translate research and expertise across its themes into innovative business practice, products and services.

---

# TREMOUGH INNOVATION CENTRE TIC

[www.tremoughcampus.com/tic](http://www.tremoughcampus.com/tic)

---

Cornwall Council is building a £13M state-of-the-art Tremough Innovation Centre (TIC) on land adjacent to the Tremough Campus.

The TIC will enable existing and start-up companies to grow and thrive.
