GUIDE TO UNDERGRADUATE STUDENT FINANCE 2019
PROSPECTIVE UK/EU STUDENTS
INVESTING IN YOUR FUTURE

Deciding to go to university is one of the most important decisions you will ever make and we’re delighted you’re thinking about coming to the University of Exeter.

We are committed to attracting the best and brightest students and providing you with the support and facilities you will need to realise your potential. As well as investing in campus-wide developments to provide you with world-class teaching and learning facilities, we have created a significant number of fee waivers and bursaries to complement the Government loans that are available. We believe that financial circumstances should not prevent anyone from studying and that’s why we are spending approximately £6 million on financial support for students in 2017/18.

Tuition fees for UK and EU students starting in 2019 have not yet been approved by the UK Government, but are currently £9,250. This guide will help to explain all the facts that you need to know about tuition fees and the additional support that will be available.

We know that student finance can be confusing. Being an undergraduate student involves two main expenses: tuition fees and living costs; however, there is a variety of funding and financial help available from the Government and universities to pay for these. Our aim in this guide is to explain the system as clearly as possible, so you can make informed choices about your future and be able to budget effectively.

This guide is mainly aimed at students from the UK, or those who are classed as Home students (although some information is also relevant to students from the European Union intending to study full-time). Students who are considering part-time study should see the back cover for advice on where to get further information.
We are committed to attracting and supporting the most talented students, irrespective of their financial background. We recognise, however, that some students will have concerns about the cost of their studies and so we provide a bursary scheme.

ACCESS TO EXETER BURSARIES

The Access to Exeter Bursary is a guaranteed, non-competitive bursary available to students with a household income below £25,000, which does not have to be paid back.

Under the scheme we will provide a range of bursaries depending on your household income. The table below shows the household income thresholds and bursary amounts for 2018/19 entrants:

<table>
<thead>
<tr>
<th>Household income</th>
<th>Access to Exeter Bursary Yr 1</th>
<th>Access to Exeter Bursary Yr 2 onwards</th>
</tr>
</thead>
<tbody>
<tr>
<td>Below £16,000</td>
<td>£2,100</td>
<td>£1,550</td>
</tr>
<tr>
<td>£16,001 to £25,000</td>
<td>£1,050</td>
<td>£1,050</td>
</tr>
</tbody>
</table>

You do not have to apply for an Access to Exeter Bursary — we will automatically assess your entitlement based on information about your household income provided by Student Finance England. However, we can only do this if you consent to Student Finance England sharing your financial details when you complete your application form.

The Access to Exeter Bursary is available for each year of your undergraduate study.
Apart from taking out a loan to cover tuition fees, most students also need financial support to help with their living costs. Maintenance loans are available from the Government in addition to any support eligible students may receive from the University of Exeter or chosen university.

The figures below relate to proposed financial support for students who are normally residents in England and who are starting university in the academic year 2018/19. Financial support is also available for students from Northern Ireland, Scotland and Wales and also other EU countries; for further details visit the Student Finance website at www.gov.uk/student-finance

If you are a full-time UK student, you will be able to apply for a loan to assist with your living costs such as food, accommodation and travel in each year of your degree. The amount you will be entitled to depends on your household income.

<table>

<td>£4,331</td>
</tr>
</tbody>
</table>

A larger loan of up to £11,354 will be available if you live away from home and study in London.

A loan of up to £7,324 for students living at home

Student Finance England will pay your loan straight into your bank or building society account in three instalments – one at the start of each term.

---

1 A loan of up to £9,654 will be available if you spend a year of a UK course studying abroad.
ADDITIONAL FINANCIAL SUPPORT

FULL-TIME STUDENTS WITH DEPENDANTS
If you are a full-time student with children or adult dependants you may qualify for extra help. Non-repayable funding sources (2018/19 figures) that are dependent on household income include:

- **Childcare Grant** – up to 85 per cent of childcare costs per week, up to a maximum of £164.70 for parents with one child or £282.36 for parents with two or more children

- **Parents’ Learning Allowance** – up to £1,669 per year towards course-related costs

- **Adult Dependants Grant** – up to £2,925 per year if you have a financially-dependant partner or other adult

You should be aware that if you are claiming benefits, your eligibility for a maintenance loan (whether you take it or not) and some student grants may be counted as income by the job centre and housing benefits office. Further information on these grants, including eligibility criteria, can be found at [www.gov.uk/student-finance](http://www.gov.uk/student-finance)

OTHER GRANTS FOR SPECIFIC CIRCUMSTANCES
Some groups of students may be able to get additional, non-repayable grants from the Government. Additional grants are available in the form of the following:

- **Disabled Students’ Allowance** – this help is not means-tested and is intended to help towards additional support you may need because of a disability. This is paid on top of your other student finance and does not need to be repaid. Further information can be found at [www.gov.uk/disabled-students-allowances-dsas](http://www.gov.uk/disabled-students-allowances-dsas)

- **Hardship Funding** – provides help for students in hardship who may need extra financial support for their degree and to stay in Higher Education

SUPPORT FOR CARE LEAVERS
If you are aged under 25 and indicate on your UCAS form that you are a care leaver, we will contact you for further information and let you know about the financial and pastoral support that we offer to care leavers.

Care leavers are usually classified as independent students and would therefore qualify for the maximum levels of government and institutional financial support.

This financial support includes:

- A full fee waiver for all years of study
- Opportunity to apply for the Access to Exeter Bursary
- Opportunity to apply for the Unite Foundation Scholarship – this scholarship provides free accommodation for three years of UG study in a designated Unite Students property.
- Care Leavers Bursary – the bursary amount is not fixed but is intended to help with the cost of accommodation during the summer vacation period.

Please see our website for full details [www.exeter.ac.uk/students/finance/studentfunding/fundingforcareleavers](http://www.exeter.ac.uk/students/finance/studentfunding/fundingforcareleavers)

SUPPORT FOR ESTRANGED STUDENTS
If you are not supported by your family (estranged) you can ask to be assessed by Student Finance as an Independent student and be assessed on your own household income. You are eligible to be considered as an estranged student if you have not had contact with your parents for at least 12 months and your estrangement is irreconcilable.

The University supports estranged students with both financial and pastoral support.

This financial support includes:

- Opportunity to apply for the Access to Exeter Bursary
- Opportunity to apply for the Unite Foundation Scholarship – this scholarship provides free accommodation for three years of UG study in a designated Unite Students property.
- Estranged student bursary – the bursary amount is not fixed but is intended to help with the cost of accommodation during the summer vacation period.

Independent advice on funding is available from the Students’ Guild Advice Unit, visit [www.exeterguild.org/advice](http://www.exeterguild.org/advice)

PAYING BACK YOUR LOANS
You’ll only start making repayments when your income is over the UK repayment threshold, which is currently £21,000 a year. The repayment threshold is expected to change to £25,000*

When you are earning over £25,000 per year you will only repay a small proportion of your income above £25,000.

If your salary falls below £25,000, your repayments will stop – for example if you take a career break or are unemployed. Repayments only start again when you earn over £25,000. The loan repayments will be deducted from your salary, normally through the tax system.

---

* Subject to confirmation from Government.
LIVING EXPENSES – HOW MUCH WILL THEY BE?

Your living expenses will mainly include accommodation (unless you are living rent-free at home), food, entertainment and books. Other living costs will depend on your lifestyle.

HOW CAN I BUDGET FOR MY LIVING COSTS?

Step 1: Incoming budget – Start by working out an overall incoming budget. Add together how much money you will receive from loans, bursaries and any other sources of funding, such as savings or parental contributions.

Step 2: Outgoings budget – Make a list of the things you will need and want to spend money on. These generally include:

Accommodation
Accommodation will normally be your largest expenditure. In 2017/18 the average cost of accommodation in catered University halls (where breakfast and dinner are provided daily) was £209 per week, and in self-catered University accommodation it was £140 per week (depending on the type of room). It may seem that this makes self-catered much cheaper, but you should bear in mind that catered accommodation contracts are for 32 weeks of the year (so you pay for fewer weeks but have to clear out your room during the holidays); whilst self-catered University accommodation contracts are generally for 40 or 44 weeks per year (which means you don’t have to clear out your room during Christmas and Easter holidays but you are paying for it when you may not be there). In private sector accommodation, rents in 2017 were in the region of £85-160 per week, plus a deposit of around £400 per person. For up-to-date information on accommodation costs go to www.exeter.ac.uk/accommodation

Bills
In University accommodation, rents include all utility bills and contents insurance cover for the room. In private accommodation, gas, electricity, water, telephone, TV licence, insurance and broadband costs all need to be taken into consideration.

Food
While catered accommodation is great for those who don’t want to have to cook for themselves (although you will still need to think of lunches), self-catered accommodation offers the flexibility to cook all meals for yourself. However, costs can mount up if you don’t plan ahead, and relying on takeaways or ready-meals is expensive. Try to organise a menu for a week and write a shopping list to ensure that you only purchase the food you will use. If you’re in self-catered accommodation it’s cost effective to shop, cook and eat in a group as sharing the cooking will save you money and time and can be a lot more fun.

Course costs
Some courses require you to buy more books and materials than others and some may require you to take part in field trips or buy special equipment such as lab coats. At the University of Exeter essential health and safety equipment and the cost of compulsory field trips will be covered by your tuition fees. Your academic department will be able to provide a guide to the costs you can expect for other field trips and special equipment and some provide bursaries towards the costs of these. Forward planning, second-hand book sales and good use of the library can save money.

Travel costs
At the University of Exeter, our accommodation is either on the campuses or within walking distance, so you won’t have to spend money on transport to and from campus. All of our campuses are also within walking distance (or short bus journeys) of stations, shops and entertainment. Take advantage of special discounts for students on trains and coaches, and book trips as far in advance as possible, so you can get the cheapest fares. If you own a car, consider whether you need a car at university at all – parking on campus is severely restricted and the costs of running a car are high. All our campuses have excellent facilities for cyclists, so bringing a bicycle is a great idea to keep travel costs down.

Leisure and sports
Consider club and society membership costs, gym membership and whether you’ll need to hire equipment or pay for extras.

Social life and entertainment
There is so much to do while you’re a student and not all of it costs a lot! Our Students’ Guild provides fantastic subsidised entertainment but costs can still mount up if you go out often. Make sure that you are realistic about how much you might need and how much you can afford to spend, then stick to your budget.

Other expenses
You also need to consider other necessities such as clothing, toiletries, haircuts and extras including telephone (including mobile contract), internet and a TV licence.
Step 3: Balance the books – Once you’ve got a general idea of how much income you’ll have and how much your living costs will be, you’ll be able to work out how much you need to spend each week or month, whether your income will cover this and whether there is any shortfall. Working out how much you will need to live on is an important calculation to make before university starts. It is worth thinking about how this breaks down week by week, particularly as student finance/funding tends to be paid on a termly basis, and you will need to make your loan stretch until the next term begins.

Most students will find that expenditure exceeds income and so you’ll need to find ways of saving money and/or increasing your disposable income. Additional income sources include savings, extra parental contributions and interest-free bank overdrafts. If your outgoings exceed what is coming in, it is probably worth thinking about getting a sensible level of part-time work to help bridge the gap. Vacation work is also a good option as you can supplement your term-time expenses.

Part-time work
Most students supplement their grants and loans by working part-time. The maximum recommended is 10-15 hours during term-time, and the National Minimum Wage for people aged 18-20 is £5.60 per hour (£7.05 for ages 21-24). The Career Zone on the Streatham Campus in Exeter is there to help students find part-time jobs and the Careers Service at the Penryn Campus offers a similar service for Cornwall-based students.

### EXAMPLE EXPENDITURE

**Student A – living in catered accommodation**

Catered accommodation for students based in Exeter 2017/18 (term-time costs only – 32 weeks per year)

FREQUENTLY ASKED QUESTIONS

What help is available for mature or part-time students?
Part-time students will still have to pay tuition fees on a pro-rata basis but can also apply for a tuition fee loan to cover their tuition costs, again on a pro-rata basis. To be eligible for a tuition fee loan, this must generally be the first time you’ve studied on a Higher Education degree and you must complete a minimum of 25 per cent of the equivalent full-time course load per year. We know that part-time and mature students often have more complex financial queries that they need to discuss before they make the decision to go to university. Prospective students can access impartial advice from the Students’ Guild Advice Unit. You can telephone them on 01392 723520 to make an appointment, email them at studentadvice@exeter.ac.uk or visit their website www.exeterguild.org/advice

What are you doing to support students from lower income households?
We are committed to ensuring that high achieving students will be able to study for an undergraduate degree at the University of Exeter irrespective of their financial background. In 2017/18 we intend to spend approximately £6 million on financial support for around one third of our UK/EU students beginning their studies in that academic year. In addition we intend to spend £6 million on activities that support access, student success and progression to raise aspirations and encourage students to enter and remain in Higher Education.

How much will I have to pay if I choose a degree which includes a year abroad or a year-long industrial placement?
Students enrolling in four-year programmes involving a year-long work placement will pay £1,850 (or 20 per cent of the fee for that year) and students studying abroad will pay £1,385 (or 15 per cent of the fee for that year) during their year away from the University instead of the full annual tuition fee. These reduced fees will be used to cover the costs of administration, and preparing and supporting students during their year away.

How much will I have to pay if I choose a degree which includes a semester abroad?
If you are studying abroad for a semester you will pay the standard tuition fee for the year in which you are away.

My degree involves a lot of fieldwork. Will I be expected to pay extra for this?
Your tuition fee will cover the cost of participation in compulsory field trips, although you may be required to pay a contribution depending on your choice of field location. If you choose to participate in additional, optional field trips or fieldwork, you may be expected to contribute to costs. Bursaries will be available to help eligible students pay for these additional optional costs.
