

HEaTED PROFESSIONAL DEVELOPMENT ROUTE MAP

Technical staff engaged in professional development are more motivated, adaptable, efficient and more easily retained by their organisations, so how can individual technicians and organisations ensure technicians stay engaged? And what can HEaTED do to help?

Technician

What you can do as an individual technician

- Discuss training needs with your manager and see how HEaTED can help meet your CPD needs
- Join a professional body
- Sign up free on the HEaTED website and join in the online groups

100% of technical staff signed up with HEaTED

Always advancing subject knowledge and keeping up to date with developments in technology to support research

Ongoing commitment to personal development, adaptable and responsive to organisational demands and changes

Organisation

What organisations can do to support technicians

- Meet with your local HEaTED network coordinator
- Support technical staff in attending network events and CPD
- Via technical managers ask technical staff to sign up to HEaTED website and emails
- Put HEaTED information on staff development webpage
- Appoint a HEaTED key contact with a clear remit for technical staff development
- Create a mailing list of your technical staff and cascade HEaTED information

10% of technical staff professionally registered

- Invite HEaTED to run workshops for technical staff
- Work with technical managers to set up an internal technical staff committee / network
- Ensure a member of the senior management team has a remit for technical staff development
- Conduct a training needs analysis
- Include a technical showcase in open days and fresher's week
- Run departmental technical conferences
- Host HEaTED CPD activities
- Recognise technical staff in student feedback exercises

25% of technical staff professionally registered

- Use CATTs to support performance review, staff development and succession planning
- Run a whole organisation technical conference
- Host a HEaTED network event
- Support internal technical network events
- Become a HEaTED CPD provider
- Establish a technical apprenticeship programme

50% of technical staff professionally registered
