

Welcome to the University of Exeter!

Please Note: The self-guided tour makes reference to most buildings on campus. Please feel free to go into the buildings and look around. Access is normally available between 9am-5pm Monday – Friday.

The University of Exeter has three different sites. Two of its campuses are in Exeter (Streatham Campus and St Luke's Campus), whilst the third is in Cornwall.

St Luke's is the smaller campus in Exeter and is about a mile away from the Streatham Campus. It is close to the city centre, which is only about a 15-minute walk away, and is connected to the Streatham Campus by a regular bus service, which goes through the centre of the city.

Students studying Sport and Health Sciences programmes will be based at St Luke's Campus which is home to the internationally renowned Children's Health and Exercise Research Centre. The campus also houses the Graduate School of Education, one of the leading PGCE providers in the UK, and the Peninsula College of Medicine and Dentistry, one of the newest medical and dental schools in the UK. Students have studied at St Luke's for over 150 years and although much has changed over the years, the campus has retained a vibrant, collegiate atmosphere in which everyone soon gets to know each other.

1 Porters' Lodge (North Cloisters) 1

North Cloisters houses one of the main lecture theatres and most of the academic staff from the Graduate School of Education. As you stand facing the Quad, you will see a multitude of distinct buildings. Straight ahead, with the odd-looking roof is Cloisters Restaurant **11**. On its right hand side is one of the Halls of Residence, South Cloisters **12**, (you will see the balconies of each room jutting out of the building). On its left, in order, you will see the Smeall Building **10**, the Peninsula College of Medicine and Dentistry **8** and the Haighton library **6**.

1 North Cloisters

2 Turn left and walk alongside North Cloisters towards the library.

You are currently walking around the outside of the main campus common room **3**. Inside the common room you will find:

- **Campus Bar (Cross Keys Bar):** this is the main social area for all students studying at St Luke's. On Saturday nights, it hosts the legendary 'Bop' which is frequented by a large proportion of students. There are also regular film nights, quiz nights and the occasional bingo night to keep students entertained throughout the week!
- **Re:refresh Cross Keys:** this food outlet serves hot and cold meals available for all students.
- **Common Room:** facilities here include a big screen TV where major sporting events are shown.
- **Guild Information Point:** this is the main office for the Students' Guild at St Luke's. Here you can purchase tickets for events; make various appointments for the advice centre; see the sabbatical officers, etc. The advice centre runs a free service during term time where students can get help to deal with issues to do with accommodation, welfare, academic issues and housing contracts amongst others.

2 Cross Keys Bar

3 Now walk up the path towards Baring Court 5.

Baring Court is used for various purposes. The ground floor is used by the Graduate School of Education to simulate the classroom experience and also houses the internationally renowned Children's Health and Exercise Research Centre. The centre is devoted to the study of the exercising child and aims to initiate research in paediatric exercise science and disseminate the findings. The top two floors have small lecture theatres and seminar rooms.

2 Students' Guild

4 Opposite Baring Court is the Sports Hall 7.

There are two sports halls, (one fully kitted out for 5-a-side football), the gym, equipped with cardio-vascular equipment, and a heated indoor swimming pool. Students studying on this site also regularly use the facilities on the Streatham Campus.

4 Indoor Swimming Pool

5 Now walk back towards the Quad. As you turn the corner, on the left hand side you'll see the library entrance 6.

The library has specific books for education, sport sciences and medicine. It is a very well resourced library used by students and visitors alike. The library also houses a 24-hour access computer suite which is available for all students.

6 Walk past the library and down the pathway past Peninsula College of Medicine and Dentistry 8.

Peninsula College of Medicine and Dentistry is a joint project between the Universities of Exeter and Plymouth and the NHS. Peninsula Dental School opened in 2007 and was the first new dental school in the UK for 40 years.

5 Library

7 Once past the Peninsula College of Medicine and Dentistry building, you will see the Richards Building **9**, where the facilities for students studying on Sport and Health Sciences programmes are based. In this building you will find various laboratories used by undergraduate students throughout their degree programmes. Most of the academic staff for these programmes are based within the building. The building also houses a state of the art AV suite available solely for the department of Sport and Health Sciences.

8 Behind the Richard's Building is one of the Halls of Residence – College House **14**. This hall has 90 single en-suite rooms. All rooms have telephone, fast broadband and mini-fridges. Even though these halls are catered (providing breakfast and dinner during weekdays and three meals a day at weekends), there are numerous kitchens in College House providing basic facilities.

9 Now walk back past the Richards Building **9** and turn left once past the entrance to the Peninsula College of Medicine and Dentistry. The Quad should be on the right hand side. On the left hand side we have the Smeall Building **10** – used by Peninsula College of Medicine and Dentistry for seminar sessions with small groups.

Cloisters Restaurant is the next building **11**.

The lower floor is used by residents from the Halls (College House, South Cloisters and New Nancherrow) and this is where they eat. The upper floor houses the restaurant which is open on weekdays for tea/coffee or a lunchtime snack.

You are now looking towards South Cloisters **12**. The lower floor houses the University supermarket and the Print Unit. There is also a computer suite on the ground floor. The second and third floor is the Hall of Residence.

These rooms share the same characteristics as College House with the exception of the en-suite facilities. Residents here normally share bathroom facilities amongst a group of eight.

10 Now head back towards the Porters' Lodge. You will see the third Hall of Residence just across the road on your left, New Nancherrow **13**.

This concludes the tour of the St Luke's Campus, but please feel free to spend more time exploring. You may also like to visit the Streatham Campus to see the range of facilities available there. Please ask at the Porters' Lodge for more details about how to get there.

We hope you have enjoyed your visit – have a safe journey home!
