

Open Research Service Offer

We promote Open Research at Exeter by providing support and training in the following areas.

Open Access

- University of Exeter open access policy
- Open access requirements of REF 2021 and research funders
- Making research publications open access in the institutional repository (ORE)
- Use of Symplectic to manage publications and upload to ORE
- Accessing funding to pay for open access
- Administration of UK Research Councils open access block grant, Charity Open Access Fund (COAF) and Institutional APC Fund
- Publisher requirements

Research Data Management

- University of Exeter data management policy
- Research funders' data management requirements
- Researcher responsibilities regarding research data management
- Data management plans (DMPs)
- Data access statements
- Use of Symplectic to upload data to the institutional repository (ORE)

Format of training/support offered

General and bespoke sessions for each of open access and research data management:

- 1:1 meetings
- 10-15 minute overview at start of departmental / discipline meetings
- 30 minute seminars
- Workshops
