

Teaching Excellence Framework: Year two

Statement of findings University of Exeter

UKPRN: 10007792

This award was made in June 2017 and is valid for up to three years.

The TEF Panel reviewed the provider metrics and provider submission according to the process and criteria specified in the TEF guidance.

The provider metrics supplemented by the submission indicate that students from all backgrounds achieve outstanding outcomes. Very high proportions continue with their studies and progress to highly skilled employment or further study, notably exceeding the provider's benchmarks. The metrics indicate outstanding levels of student satisfaction with teaching, assessment and feedback, and academic support in all cases notably exceeding the provider's benchmark.

The Panel considered the submission in relation to the TEF criteria and its judgement reflects in particular, additional evidence of:

- outstanding commitment to ensuring positive outcomes for all students
- learning experience enriched by teaching delivered by business, industry and professional experts
- teaching delivered in an outstanding environment
- highest quality support for independent study and research
- optimum levels of contact hours and class size designed to support subject-specific progression of learning and the development of graduate attributes
- a strategic approach to embedding consistency of experience for all students across the provider
- consistent and effective use of management information to enhance student opportunities and achievement, embedded across the institution.

Overall, the TEF Panel judged that the combination of evidence in the provider metrics and the provider submission best fits the descriptor for a Gold award.
