 My course is fantastic! I find the topics interesting, and it stretches me in a supportive and encouraging environment. The staff are really invested in you and in their area of study, which adds so much to your learning experience. I've found that Exeter is a fantastic University with dedicated staff, an easy-going culture, and a fun atmosphere which I love – I can't recommend it highly enough.

Emma, studying BA  
Arabic and International  
Relations with Study Abroad

FORUM LIBRARY

# FLEXIBLE COMBINED HONOURS

Create subject combinations not otherwise available

Study two or three subjects, or follow a themed interdisciplinary pathway

Vary the proportion of the subjects each year, playing to your strengths or areas of interest

Graduate with a degree title naming the subjects you studied

Opportunities for study or work abroad, or UK-based work experience

Flexible Combined Honours (FCH) offers a unique and appealing degree structure as it lets you study a range of subjects – related or totally diverse – in a very flexible manner. It allows you to develop a particular blend of knowledge and skills in line with your own subject interests and career objectives.

At its simplest level, FCH lets you combine two subjects where there is currently no existing Combined Honours degree at the University, for example Geography and Economics or Management and German. It also offers the opportunity to study three subject areas, if compulsory modules allow – please ask about this before applying.

All FCH students study alongside Single and Combined Honours students at the University, so you will be learning alongside those with the same interests.

You are able to combine subjects across departments, including arts/humanities, sciences and social sciences, creating a cross-college degree such as Biosciences and Philosophy or Psychology and Management.

Alternatively, you can take modules from a variety of departments by studying one of our thematic pathways. For example, our Sustainability pathway enables you to choose relevant modules from Geography, Politics, Management, Biosciences, Middle East and Arabic Studies, Anthropology and Sociology. Other thematic pathways include Leadership, Mediterranean Studies, Strategy, and International Security and Religion. Our thematic pathways can be studied on their own or in combination with other subject areas.

The title of your degree will reflect your areas of study: eg, BA International Relations and Economics, BSc Mathematics and Sustainability or BA Drama and Philosophy. Throughout your degree you are guided by the FCH staff, subject coordinators in each of your subject areas and your personal tutor. All are there to help you choose the most appropriate academic pathways and to get the most out of your degree and your time at the University of Exeter.

FCH will appeal to you if you wish to study a range of subjects, if you are not sure what disciplines you want to focus on yet, or if you wish to weight your credits to suit your strengths or areas of interest.

# DEGREE PROGRAMMES

FCH offers the widest possible access to Exeter's range of subject disciplines. It gives you the opportunity to study otherwise unavailable or unusual subject combinations and to customise your degree programme, making it distinctive and different.

The following FCH subject areas are available – you can combine any two unless stated otherwise, or if the combination exists as an 'established' Combined Honours degree (see [www.exeter.ac.uk/ug/all-courses](http://www.exeter.ac.uk/ug/all-courses)). If you are interested in combining three subjects, please contact us before applying:

- Accounting\*
- Ancient History
- Anthropology
- Arabic
- Archaeology
- Art History & Visual Culture
- Biochemistry<sup>△</sup>
- Biological Sciences
- British Sign Language (minor)
- Chemistry<sup>△</sup>
- Chinese (Mandarin)
- Classical Studies
- Classics
- Computer Science
- Criminology
- Drama
- Economics\*\*
- English\*
- Exercise and Sports Science♦
- Film Studies
- French
- Geography
- German
- Greek (Ancient)
- History\*\*†
- International Relations○
- Italian
- Japanese (minor)
- Latin
- Leadership<sup>◊</sup>
- Management\*\*

- Mathematics ■♦□
- Medical Sciences □
- Mediterranean Studies ♦
- Middle East and North African Studies ♦
- Philosophy
- Politics o†
- Portuguese
- Psychology ▲
- Religion ♦
- Russian
- Sociology
- Spanish
- Strategy and International Security ♦
- Sustainability ♦
- Teaching English to Speakers of Other Languages (TESOL) (minor)
- Theology

When you apply via UCAS for FCH, you must indicate your proposed subjects under ‘further details’ in the ‘choices’ section of the application – for details of how to do this, please see [www.exeter.ac.uk/ug/flexible/ucas](http://www.exeter.ac.uk/ug/flexible/ucas)

## HOW YOUR DEGREE IS STRUCTURED

You can combine subjects in various proportions and the proportion can change each year, provided any compulsory modules are taken.

**Year 1** In your first year you usually take a combination of one or more compulsory modules, plus optional modules chosen from those available in that year.

**Year 2** In your second year you will have more choice of modules and will be able to structure your degree to reflect your own preferences. You can also drop a first year subject and start a new one, or follow

a new themed pathway.

**Final Year** During your final year you can also include research-based independent study or a dissertation with individual supervision in a subject of your choice.

All our undergraduate degree programmes are made up of a number of modules, each of which has a particular credit value, usually 15 or 30 credits. You take modules to the value of 120 credits in each year. Your credits could be arranged in a number of combinations, the modules simply need to add up to a total of 120 credits. If you choose to study two subjects you could equally weight the credits as 60/60 or you could make one subject a ‘major’ and one subject a ‘minor’ through a 75/45 or 90/30 credit arrangement. If you study three subjects you would organise your credits as 45/45/30 or 60/30/30.

For full details of all the FCH subject pathways, including module descriptions please see [www.exeter.ac.uk/ug/flexible](http://www.exeter.ac.uk/ug/flexible)

Please note that all modules are offered subject to availability, module capacity and timetable constraints.

- † Cannot be combined with each other.
- ▲ Available both as British Psychological Society accredited and as non-accredited pathways.

# LEARNING AND TEACHING

You'll learn through lectures, tutorials and seminars, with a growing emphasis at each successive level on student-led learning. Science-based subjects will also include laboratory work and experiments. Our teaching emphasises the need to analyse, discuss and deploy ideas in a variety of settings and not simply on the ability to memorise. Modules are also designed to encourage you to think and write analytically about broad subjects.

We're actively engaged in introducing new methods of learning and teaching, including increasing use of interactive computer-based approaches to learning, such as our virtual learning environment. Students can access detailed information about modules and learning outcomes and take part in discussion forums.

As well as attending lectures and writing essays and assignments, you'll be expected to make presentations in seminars or tutorials. We encourage the presentation of work because it involves you actively in the teaching and learning process and develops important life skills, such as good verbal and visual communication, as well as effective interaction with other people.

We're committed to enhancing and developing your key personal and transferable skills. You'll develop a range of professional skills, for example, time management and team working. You'll gain valuable critical, analytical and communication skills, as well as subject-specific skills.

You're encouraged to discuss aspects of the subject with the lecturer either individually or in groups, promoting the development of informal tutorials with the agenda set by students.

## RESEARCH-INSPIRED TEACHING

We believe that every student benefits from being part of a culture that is inspired by research and being taught by experts. Teaching will be highly relevant as lecturers will be familiar with contemporary issues and the latest developments in their field. Your seminars and tutorials will give you the opportunity to discuss and explore these new ideas in more depth. Regular research seminars are given by staff and by visiting lecturers, which will also bring you the latest issues on a wide range of research topics.

## ACADEMIC SUPPORT

You will have a personal tutor who is available for advice and support throughout your studies. There are also a number of services on campus where you can get advice and information, including the Students' Guild Advice Unit. You can find further information about all the services in the University's undergraduate prospectus or online at [www.exeter.ac.uk/undergraduate](http://www.exeter.ac.uk/undergraduate)

## STUDY ABROAD\*

Studying at Exeter offers you the exciting possibility of spending a year abroad. This is normal for FCH students studying a foreign language for half of their degree, but we encourage non-language students to do so as well. With Study Abroad, you could learn a new language and experience different cultures, become more self-confident and widen your circle of friends. You could also get the chance to specialise in areas that aren't available at Exeter, and when it comes to a career, your skills and knowledge of another country will prove valuable to many employers. This programme is also available to international students coming to study at Exeter.

Further details about Study Abroad and our partner institutions can be found at [www.exeter.ac.uk/ug/studyabroad](http://www.exeter.ac.uk/ug/studyabroad)

## EMPLOYMENT EXPERIENCE IN THE UK OR ABROAD

Spending up to a year carrying out a graduate-level work placement or placements as part of your degree programme is a valuable opportunity. This unlocks a world of experience, allowing you to develop essential employability and interpersonal skills that relate to your degree and future career. You will take full responsibility for finding and organising your placement (either in the UK or abroad), with preparation, support and approval from the University. This is a great way to demonstrate to employers your adaptability, cultural awareness, independence and resourcefulness.

## ASSESSMENT

You'll be assessed by a variety of methods: some modules are assessed on the basis of exams only, some modules require assessed coursework that can take the form of essays and projects or presentations, while practical modules tend to be assessed by the preparation of written reports, portfolios of work, practical assignments, fieldwork notebooks and takeaway papers to allow time for research. Your first year doesn't count towards your final degree classification, but you do have to pass it in order to progress. If you study a three-year programme, assessments in the final two years both count towards your classification, and if you study a four-year programme then the final three years all contribute.

For full details of the assessment criteria for each module, check the relevant subject areas on our website at [www.exeter.ac.uk/undergraduate](http://www.exeter.ac.uk/undergraduate)

\* In order to be eligible for our 'with Study Abroad' programmes you will need to attain an average of 60 per cent or more in your first year.

# YOUR SUCCESSFUL CAREER

## RECENT GRADUATES ARE NOW WORKING FOR<sup>▲</sup>:

- Civil Service
- Lloyds Banking Group
- Mondelez International
- Devon and Cornwall Police

## CAREERS SERVICES

We have a dedicated, award-winning Careers Service, ensuring you have access to careers advisors, mentors and the tools you need to succeed in finding employment in your chosen field on graduation. We offer the Exeter Award and the Exeter Leaders Award which include employability-related workshops, skills events, volunteering and employment which will contribute to your career decision-making skills and success in the employment market. Our graduates compete very successfully in the employment market, with many employers targeting the University when recruiting new graduates. For further information about our Careers Service please visit:  
[www.exeter.ac.uk/careers](http://www.exeter.ac.uk/careers)

## FLEXIBLE COMBINED HONOURS CAREERS

Our FCH students have an excellent reputation with employers across a range of sectors. As an FCH student you are able to build a programme of study that meets your career goals. Not only does this help you to stand out from the crowd, but you are also able to demonstrate breadth of knowledge and the ability to shape your own degree.

You will have the opportunity to participate in work experience as part of your degree programme. Options range from short work placements lasting for one or two weeks, to spending up to a year working in the UK or abroad.

I took up Mandarin Chinese at Beginners level and am now heading to China to study at one of Exeter's partner universities for a year. Exeter offers more than just the 'Year Abroad' for international experiences – last summer I secured an internship through the University to spend the summer in the south of France, and last Easter I went to northern France to teach English to children in a primary school. If you have been lucky enough to be offered a place by Exeter, I recommend you accept it!

Phil, studying BA Chinese and French with International Relations and Study Abroad

# KEY INFORMATION AT A GLANCE

UCAS CODE	TYPICAL OFFER
<b>BA/BSc Combined Honours</b>	
Flexible Combined Honours/	Y004/
with Study Abroad/	Y006/
with Study and Work Abroad/	Y014/
with UK Work Experience/	Y007/
with Work Abroad	Y008

We make every effort to ensure that the entry requirements are as up-to-date as possible in our printed literature. However, since this is printed well in advance of the start of the admissions cycle, in some cases our entry requirements and offers will change.

For general and subject-specific entrance requirements, please see our Flexible Combined Honours pages at [www.exeter.ac.uk/ug/all-courses](http://www.exeter.ac.uk/ug/all-courses)

We strongly advise that you check this before attending an Open Day or making your application. Some programmes require prior study of specific subjects and may also have minimum grade requirements at GCSE or equivalent, particularly in English Language and/or Mathematics.

For information on how to complete your UCAS form for Flexible Combined Honours, see [www.exeter.ac.uk/ug/flexible/ucas](http://www.exeter.ac.uk/ug/flexible/ucas)

You can choose to submit a separate personal statement if your Flexible Combined Honours subject combination is different from your other applications. Please send this to us as a Microsoft Word-compatible (.doc or .docx) attachment, to: [ug-ad@exeter.ac.uk](mailto:ug-ad@exeter.ac.uk) Max 4,000 characters (including spaces). Please do not repeat out-of-school interests etc, as the main UCAS statement is read alongside the separate one.

## International students

If you are an international student, you should consult our general and subject-specific entry requirements information for A levels and the International Baccalaureate. However, the University also recognises a wide range of international qualifications. You can find further information about academic and English language entry requirements at [www.exeter.ac.uk/ug/international](http://www.exeter.ac.uk/ug/international)

For full and up-to-date information on applying and entry requirements, including requirements for other types of qualification, please see [www.exeter.ac.uk/ug/applications](http://www.exeter.ac.uk/ug/applications)

     (EU/International callers)

I enjoy the variety of perspectives I can study because of FCH. You learn in an amazing international environment, where everyone is different but similar at the same time! In my third year I went to Italy and worked in PR and communications and gained knowledge through my new cultural experience; at work, at home and in daily tasks.

Katya, studying BA International Relations and Management with proficiency in Italian

### Accuracy of subject brochure information

The information in this subject brochure forms part of the undergraduate prospectus 2019 and is aimed at prospective undergraduate students wishing to apply for a place at the University of Exeter (the University) and start a course with us in autumn 2019. The prospectus and subject brochures describe in outline the courses and services offered by the University and we make every effort to ensure that the information provided is accurate and up-to-date at the time of going to print (undergraduate prospectus is printed January 2018 and subject brochures are printed in May 2018).

However, it may be necessary for the University to make some changes to the information presented in the prospectus following publication – for example, where it is necessary to reflect changes in practice or theory in an academic subject as a result of emerging research; or if an accrediting body requires certain course content to be added or removed. More information about our terms and conditions can be found at: [www.exeter.ac.uk/undergraduate/applications/terms](http://www.exeter.ac.uk/undergraduate/applications/terms)

<sup>1</sup> 98% of our research was rated as 2\*, 3\* or 4\* in the Research Assessment Exercise 2014.

<sup>2</sup> Between 2006/07 – 2015/16, the University of Exeter saw the greatest rise in research income, compared to all other Russell Group universities.
