## Degree Apprenticeships

# Level 7 Advanced Clinical Practitioner Degree Apprenticeship MSc Advanced Clinical Practice

Upskill your employees through the Apprenticeship Levy funded Advanced Clinical Practitioner Degree Apprenticeship, and they will be able to transform your service delivery and meet local health needs by providing enhanced capacity, capability, productivity and efficiency.

The programme has been designed to enable the development of the skills and expertise required to respond to the challenges that our modern-day health services are facing. You are able to provide the opportunity to develop existing professional roles with theoretical concepts and provide practical skills, while underpinning the core requirements of the four pillars of Advanced Clinical Practice:

1. Clinical Practice
2. Leadership and Management
3. Education
4. Research

### Why Exeter?

- A contemporary MSc from a Russell Group university.
- Blended delivery using a combination of taught and online platforms, to allow individual and group working in any location.
- A programme designed by a team of leading academics and health practitioners to optimise the apprentice's time away from the workplace.

### Topics covered

- Advanced Clinical Practice
- Education
- Research
- Leadership and Management
- Clinical Skill Development
- Prescribing (optional)
- Service Improvement
- Professional Development

### Qualifications available

- MSc Advanced Clinical Practice
- Level 7 Advanced Clinical Practitioner Apprenticeship

### Entry requirements

Individual employers will set the selection criteria for their apprenticeships in discussion with the University.

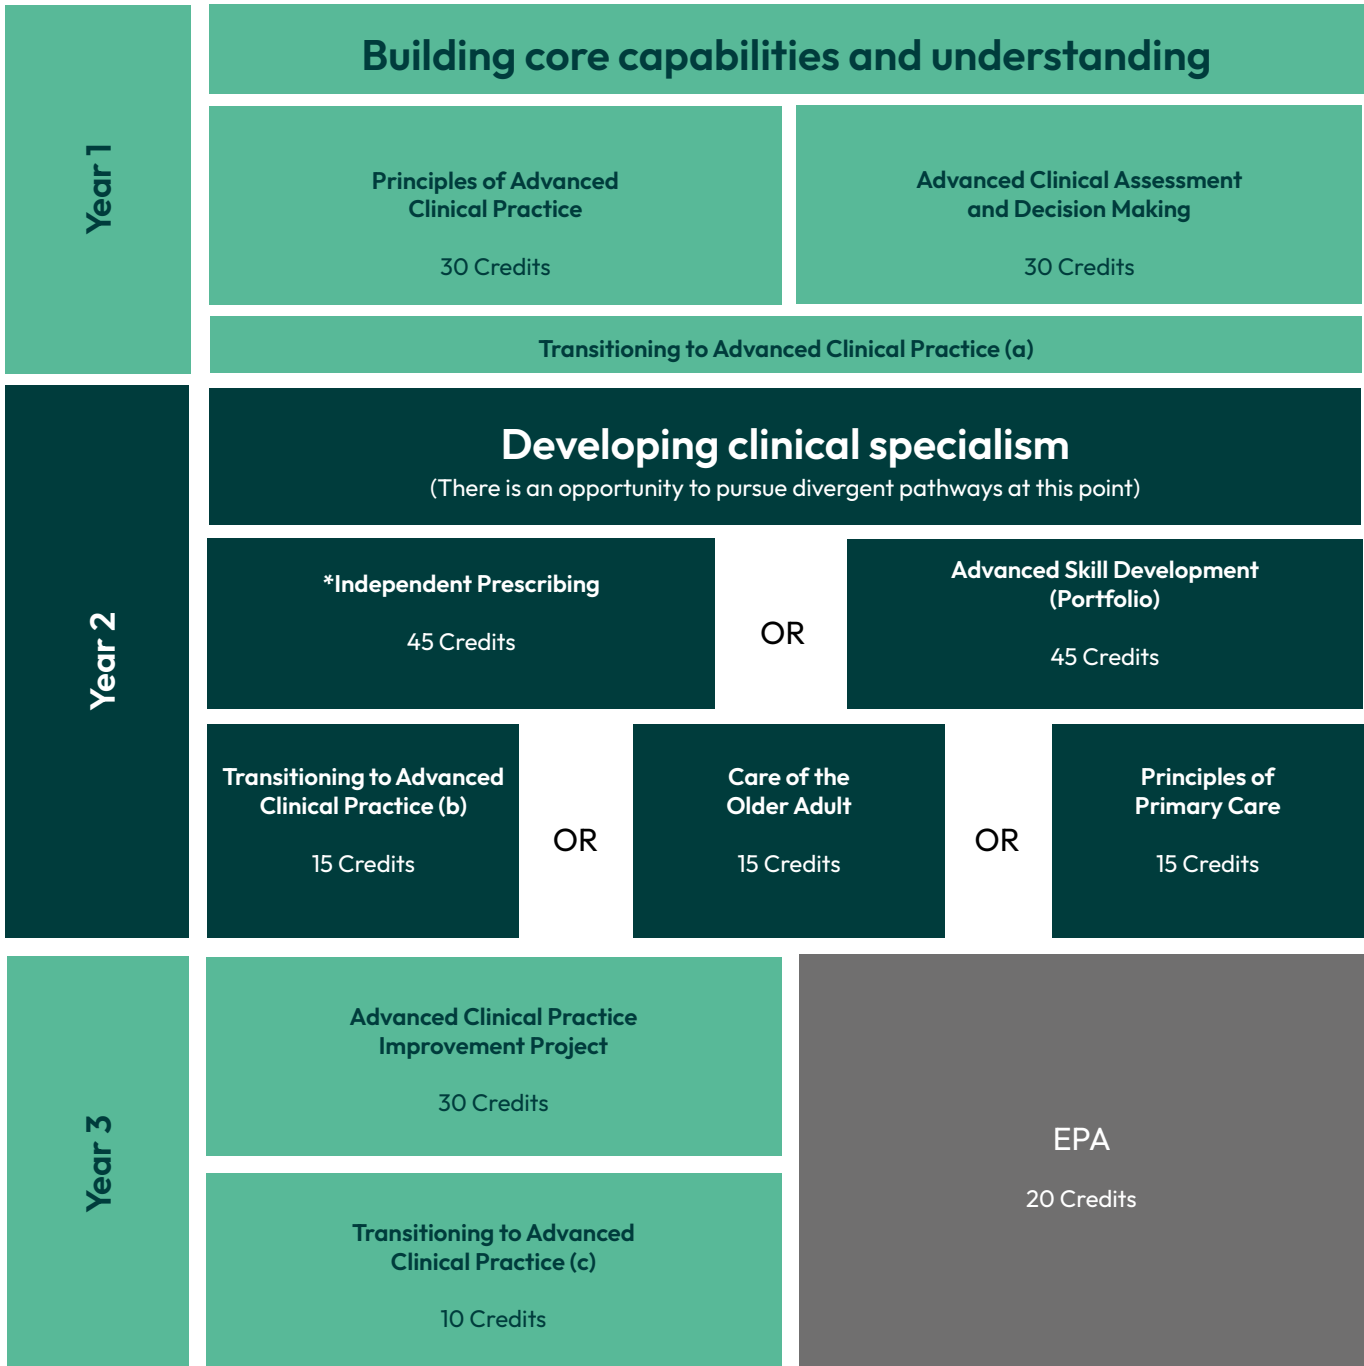

A minimum 2:2 Honours degree (or for older qualifications a Professional Diploma) in a healthcare related discipline. Relevant clinical experience or previous postgraduate qualifications will also be considered as part of the admissions process.

Registration with the appropriate statutory regulatory body for the profession (such as the HCPC or NMC) and two years post registration clinical experience.

English and Maths will be required at a minimum of Level 2 (GCSE) prior to the End Point Assessment. Evidence will be required of English and Maths qualifications and grades.
