## Degree Apprenticeships

Blended learning

## Level 7 Clinical Associate in Psychology (Integrated Degree) MSc Clinical Associate in Psychology

Over the course of the apprenticeship Clinical Associates in Psychology (CAPs) learn how to develop and apply psychological knowledge in order to become competent and skilled in the assessment, formulation and delivery of psychological treatment interventions in a range of clinical settings. CAPs will also learn skills related to the practical application of research and evaluation within services, as well as making the most of evidence-based working with a range of colleagues to promote psychologically informed assessment and intervention using a formulation-based approach.

### Why Exeter?

A prestigious qualification from a Russell Group university

Two intakes a year in autumn and spring

A proven record for many years in training clinical psychologists and other mental health professionals

Dedicated Apprenticeship team with expertise in managing a range of apprenticeships within University of Exeter

### Topics covered

Apprentices learn core competencies:

Assessment

Formulation

Intervention

Evaluation and Research

Communication

Professional and values-based practice

### Entry requirements

Level 2 English and Maths (GCSE Grade C equivalent). A minimum 2:2 first degree in psychology, or an equivalent conversion course accredited by the British Psychological Society (BPS). Applicants should be eligible for BPS Graduate Basis for Chartership (GBC) and it is highly recommended to apply for Graduate Membership of the BPS for entry to the programme. Read more about [Graduate Membership of BPS](#).
