

# Average accreditation process timeline

- **Submission** – completing an application form (typically 100+ pages) by the academic team and collating all the necessary evidence and statistics, often covering up to 3-4 years.
- **Visit prep** – organising visit logistics, such as booking rooms, catering and accommodation; coordinating a schedule; identifying current students, alumni and industry / clinical contacts to meet with the PSRB panel; providing additional information to the PSRB as required.
- **Visit** – programme academic team and senior leadership representatives being available during the 1-2 day visit for interviews and for responding to fast paced queries from the panel as they arise.
- **Post-Visit Requirements** – implementing any accreditation conditions and recommendations; submitting the evidence that the PSRB Panel requires.
