Tagging your application

- Undergraduate: submit an application using your UCAS buzzword, or nominated contact (ensuring you use the agency name) OR submit a completed representation form to your regional team contact.

- Postgraduate: select your agency as part of the university's online application form OR submit a completed representation form to your regional team contact.

- Education Agents may be required to provide evidence of the counselling provided e.g. copies of email correspondence in the event of uncertainty or a claim by another Education Agent

We expect that most students will have been directly counselled by one agency from the start to the end of their applicant journey. Whilst we strongly discourage students from switching agents, we understand that there are some circumstances where students must do so. We monitor the number of students switching agents, and this will be taken into consideration as part of our annual reviews.

Please note that this is for guidance only and a final decision will be made by the University of Exeter.
